Chennai, India (Open to relocate to Bangalore & Hyderabad)

SUMMARY

Motivated Data Analytics and Business Development enthusiast with strong analytical and problem-solving abilities. Passionate about transforming data into actionable insights, supporting business growth, and continuously learning new technologies to drive data-driven decision-making.

EDUCATION

Rajalakshmi Institute of Technology
B.Tech in Computer Science and Business Systems

Chennai, India
Aug 2022 – May 2026

EXPERIENCE

Navi tech
Full Stack Web Development Intern

Chennai, India
Dec 2025 – Jan 2026

- Developed interactive web pages and implemented modern frontend design practices to enhance user experience.
- Assisted in database integration and application functionality to support dynamic web solutions.
- Collaborated with team members to test, debug, and improve application performance.

Camwear LLP
Embedded System Design Intern

Chennai, India
Jan 2023 – May 2023

- Worked on IoT-based wearable technology projects, gaining hands-on experience in embedded systems.
- Assisted in integrating sensors and enabling real-time data communication using ESP32 microcontrollers.
- Developed a real-time IoT monitoring system detecting subsurface cable leakage, improving maintenance safety.

PROJECTS

AI Based Stock Market Analysis Using Historical Data

Dec 2025 – Apr 2026

- Built a responsive website and analyzed historical stock data to identify market trends.
- Developed backend utilizing Node.js and Python libraries, with full deployment on Vercel database.

Personal Portfolio Website

Jan 2025 – Mar 2025

- Designed and deployed a responsive personal portfolio website showcasing technical and analytical projects built using HTML, CSS, JavaScript, and Node.js.

CRUD Book Management System

Jun 2023 – Jul 2023

- Created a full CRUD web application to manage book databases with clean UI and efficient backend architecture.

Real-Time Face Recognition System

Jan 2023 – Feb 2023

- Developed an automated attendance system that recognizes faces utilizing real-time video feeds.

TECHNICAL SKILLS

Core Skills: Business Development And Data Analytic, AI Prompt Engineering & LLM Interaction, Basic API Integration

Programming & DB: Python, MySQL, JavaScript (Basic), HTML, CSS, React (Basic)

Data & Tools: Power BI, Excel, numpy/pandas (Basic), GitHub, AI tools

Soft Skills: Problem-Solving, Communication, Logical & Analytical Thinking, Adaptability

CERTIFICATIONS

Introduction to Data Engineering and Bigdata, Data Visualization using Python, Digital Marketing master class SEO, Building Chatbot using Python, Build a Face Recognition Application using Python, 8 Things You Must Know in Python, Front End Development-HTML, Novitech frontend bootcamp.
